

GARMENT DISPENSERS / COLLECTORS SPECIFICATON SHEET

**1820 MM HIGH X 380MM WIDE X 450MM DEEP
5,8,10,15,20 compartments**

Strength and Security

Door frame constructed from heavy gauge mild steel of press formed channel section.

Door Strength Main outer frame supported by full length hinge.

Door Security All compartments fitted with 10 disc, tumbler cam lock or Swivel locks for padlock use.

Style Attractive and functional locker design.

Colour Automated paint plant ensures consistent high quality finish in a wide range of modern colours.

Detailed Product Specification

Nesting: All Garment Dispensers are drilled to enable bolting side by side and for wall fixing.

Construction: Spot welded and pop riveted

Material & Finish: Mild steel-Powder Coated

Door Frame Assembly: This comprises an inner and outer door frame. The outer frame is manufactured from heavy gauge mild steel channel section. The inner frame is fabricated from heavy gauge mild steel channel with tubular cross members. The inner frame is hinged by means of a full length hinge rod 8 mm diameter manufactured from galvanised mild steel.

Doors: The small compartment doors are hinged by means of the full length hinge rod. Each door Has a rubber buffer to prevent opening damage.

Numbering: Both inside and outside of the doors can be numbered with thermographic number labels for easy compartment identification.

Bottom: The bottom is formed as a 50 mm high inverted plinth with return bends at the bottom edge. Edges holed at sides for fitting to stands.

Internal Shelves: All shelves have safety over and flat front edges.

Locking: The inner door is secured by a 10 disc tumbler cam lock. All small compartments are fitted With either a 10 disc tumbler cam locks with two keys to each lock or Swivel locks. On delivery of units the keys are fixed to each internal compartment shelf for easy compartment identification.

Paint Finish: Five stage automatic degreasing and phosphating process to remove surface contamination. This base gives improved adhesion and humidity resistance. The powder is electrostatically applied prior to oven baking at the appropriate temperature

.Colour Range: Standard locker body is Powder Coated Light Grey,

Door colours can be chosen from our standard range of colours.

OPTIONAL EXTRAS: The following can be supplied at an additional cost and, if included, will be specified in the

Colour Range: Standard locker body is Powder Coated Light Grey,
